

Priority Tree & Tall Shrub Species for Planting, Replacement & Reforestation in Southern NJ

(Burlington, Ocean, Camden, Gloucester, Salem

Cumberland, Atlantic, Cape May)

UPLANDS or SANDY "BARRENS" SOILS

White oak - *Quercus alba*
Chestnut oak - *Quercus montana*
Post oak - *Quercus stellata* St
Dwarf Chestnut Oak - *Quercus prinoides*
Mockernut hickory - *Carya tomentosa*
Sand hickory - *Carya pallida*
Pignut hickory - *Carya glabra* St
American holly - *Ilex opaca* E
Sassafras - *Sassafras albidum*
Black cherry - *Prunus serotina* St
Pitch pine - *Pinus rigida* E, F, NFW
Virginia pine - *Pinus virginiana* E, F, NFW
Shortleaf pine - *Pinus echinata* E, F, NFW
Common Hackberry - *Celtis occidentalis* St
Bightooth aspen - *Populus grandidentata* F
Grey birch - *Betula populifolia* St
Serviceberry - *Amelanchier canadensis* U, AS
Winged sumac - *Rhus copallina* S, F
Beach plum - *Prunus maritima* S, F
American hazelnut - *Corylus americana* S, AS
Northern Bayberry - *Morella pensylvanica* S, F
Mountain laurel - *Kalmia latifolia* S, E

Trees from
← either list →
can be planted
in sites with
moist soil,
not too
wet or dry

**Trees in Bold
are highest
priority to
plant**

**Ask your local
nursery/garden center to
carry these species!
And in small sizes
too!**

KEY

E = Evergreen
F = Full Sun
AS = Requires
Afternoon Shade
U = Understory Tree
S = Shrub
St = Street Tolerant
NFW = NOT Fire
Wise

LOWLANDS or FINER, INLAND SOILS

Swamp white oak - *Quercus bicolor* St
Willow oak - *Quercus phellos* St
Shagbark hickory - *Carya ovata* St
Bitternut hickory - *Carya cordiformis* St
Black gum - *Nyssa sylvatica* St
American holly - *Ilex opaca* E
Red maple - *Acer rubrum* St
Sweet gum - *Liquidambar styraciflua*
Tulip tree - *Liriodendron tulipifera* St
Persimmon - *Diospyros virginiana*
River birch - *Betula nigra* (single stem)
Grey birch - *Betula populifolia* St
Downy serviceberry - *Amelanchier arborea* U, AS
Allegheny serviceberry - *Amelanchier laevis* U, AS
American hornbeam - *Carpinus caroliniana* U, AS
Sweetbay magnolia - *Magnolia virginiana* F
Witch hazel - *Hamamelis virginiana* S, AS
Black elderberry - *Sambucus nigra* S
Possumhaw - *Viburnum nudum* var. *nudum* S, AS
Winterberry holly - *Ilex verticillata* S, AS
Inkberry holly - *Ilex glabra* S, AS
Highbush blueberry - *Vaccinium corymbosum* S, AS
Silky Dogwood - *Cornus amomum* S, AS

Optimal Tree Attributes & Planting Considerations

For: Suburban Yards, Shade Tree Replacement Ordinances,
Windbreaks, Woodlots, & Forests

We must plant the right trees in the right way to ensure we have a future forest¹

1. SELECT MULTIPLE SPECIES FROM THE ATTACHED LIST to:

- Plant in open areas to reforest (remove/reduce lawn)
- Replace removed or fallen trees
- Reforest in canopy gaps, under declining trees, or as part of a forest restoration

2. LOCAL ECOTYPE - progeny from NJ or better yet, your county or ecoregion are best suited for your local landscapes.

3. SMALLER SIZES include tubelings, 1 gal - 7 gal size

- container grown stock is preferred! (not rootbound)
- Greater chance of survival and success vs. larger stock ^{2,3}
- Grows faster than larger stock (e.g. B&B >2" caliper size)
- Suffer less from transplant stock = fewer disease issues
- Grows healthier, short term & long term
- Most environmentally sustainable option
- Most economic option

4. RESTORE DEGRADED SOILS before planting by mixing in composted leaf litter and/or organic garden soil.

5. PLANT DENSE STANDS of many saplings, not just one or two trees; use 3-10 ft spacing and 10-20 per each large tree lost.

- This planting style is natural as trees live in communities
- Their root systems interlock and protect from windthrow

6. PREVENT DEER DAMAGE - use physical barriers to stop buck rub and deer browse.

- Best options allow air passage, are rigid, require infrequent upkeep, and 6 ft. tall

7. LEAVE THE LEAVES - The best type of mulch! Fallen leaves have evolved with trees and ecosystems⁴ to:

- Nourish soil life
- Provide plant health naturally
- Improve plant & climate resiliency
- Support native biodiversity

In fire risk zones, avoid using pine straw
